

Elect Chris Otten -- Mayor DC 2006

**NO MORE WAR | PRESERVE OUR GREEN SPACES
NO MORE UNBRIDLED CORPORATE DEVELOPMENT
NO MORE DEMOLITION OF PUBLIC SERVICES AND
BUILDINGS DUE TO NEGLIGENCE | INVOKE THE NEXT
GENERATION OF TRANSPORTATION TO SAVE MONEY AND
THE ENVIRONMENT**

The ability to bring together common sense and creativity with fiscal stewardship and a vision for solid action plans makes me unique.

My experience on Wall Street allows me to understand the market forces that can affect the economic outlook of DC. As a director of a start-up non-profit serving single-parent mothers on welfare, I gained the skills to manage teams of volunteers, built working relations with businesses, city agencies, and community-based organizations, and developed the vision, goals, and budget of a successful non-profit organization. I've also worked directly with DC's homeless population and working class families since moving here thus I know the reality these people face.

We see a City devoid of meaningful leadership. We have a Mayor doing everything possible to help the wealthy and we have a City Council not willing to challenge attacks on the working poor. If elected, I will creatively use access to the media, businesses, activists, and community-based organizations to rally folks to find real solutions to these injustices.
