

## **MLK Library Must Stay!**

Otten 4 Mayor

**The MLK Library is a landmark and must not be turned into a circus of condos and retail stores.**

**The leadership in the District has historically conducted demolition thru neglect. The neglect of MLK library does not mean it should be demolished.**

For example, according to an AIA Urban Design Committee feasibility study (completed in 2000 at the Library's request), a thorough, thoughtful renovation fully addressing issues identified by staff and users over the forty years since MLK was opened could readily be achieved and at a much lower cost than building a new, smaller, so-called mixed use facility.

**MLK Library can be refurbished and become a beacon of hope once again for the residents of this City.**

**What other candidates are publicly taking a stand for MLK library?**
