

## Lets Help Seniors – Not Push Them Out Otten 4 Mayor

**DC Seniors are under attack by local and federal agencies.** With rising rents and property taxes combined with extravagant prescription and healthcare costs, seniors face a battle that requires the strong leadership.

The Federal government is entwined in an “unending war” in Iraq, sucking money from important needs such as Medicaid. This leaves the burden on the District to pick up the difference but apparently our leadership is not creative enough or seemingly inclined to do so.

We must reopen our DC General Hospital Campus. We can reinvigorate these buildings with a state of the art long-term assistance wing for our aging residents. And, services of our city must focus on those who are poor Healthcare budget increases have to be higher to meet the demands of a growing senior population.

**Let’s stand up together for our Seniors... the folks who have been here for many generations and helped make this city so important in all of our lives.**
